# Foreword

Welcome to the 2025/26 Guidance Counsellor Information Booklet. This publication includes exclusive details such as graduate employment figures, academic articles and list of changes for incoming students in 2025/26.

## Student Publications

UL produces the following two publications for prospective students:

### Undergraduate Prospectus

Visit [ul.ie/courses/about-ul/prospectus](http://ul.ie/courses/about-ul/prospectus) or scan the QR code to download the latest version of our undergraduate prospectus, where you can find detailed information about each of our courses.

### Student Brochure

Designed for use in the classroom the student brochure is a short summary of the entry requirements for all of our undergraduate courses. It also highlights the requirements for the key subject areas of English, Second Language, Mathematics and Science.

Both publications are available to download by scanning the QR code or at [ul.ie/courses](http://ul.ie/courses)

You will also find a chat function available to help answer any questions you or your students may have about UL.

## School Engagement

### Career Fairs

The Undergraduate School Engagement Team represent the university at career fairs across the country including Higher Options and fairs organised by local branches of the Institute of Guidance Counsellors. If you are organising a career fair for your school and would like the University of Limerick to have a presence, you can submit a request.

Scan the QR code to apply or visit [www.ul.ie/academic-registry/about/contact-us](http://www.ul.ie/academic-registry/about/contact-us)

### School Talks

The university offers talks to students, during class time, about our courses. UL's School Engagement Team coordinates these talks. If you would like your students to have a talk you can contact School Engagement email [schoolengagement@ul.ie](mailto:schoolengagement@ul.ie)

# UL Open Days

## 2024/2025

17-18 October 2024  
18 January 2025

- Get an inside look at our facilities and campus
- Talk to our staff and students

To find out more scan the QR code or visit [www.ul.ie/opendays](http://www.ul.ie/opendays)

Don't miss out on our Open Days to find out more about our university.

On Thursday and Friday, 17-18 October 2024, UL holds its Autumn Open Days, aimed mainly at those interested in coming to study at the University in the next few years. Many of our students say it was our Open Days that helped sway them in making UL their first choice. We encourage everyone to attend our Open Days to ensure you have all the information you need before making your CAO choice. It's not just about the course information, it is also about the student experience you will get here in UL. Our Open Days are where you will get the best sense of UL and what we have to offer. Parents, teachers and guidance counsellors are all welcome to register.

At our Open Days there will be:

- Information on all our degree courses
- A chance to talk to students and course directors
- Learn all about the UL student experience

## New Courses

### LM030 Bachelor of Arts in Global Politics

This course is planned to commence in September 2025. At the time of an offer, an applicant is required to hold the Leaving Certificate (or equivalent), with a minimum of six subjects including: Grade H5 or better in at least two subjects and Grade O6/H7 or better in at least four subjects together with a minimum of F6 in Mathematics, O6/H7 in English and O6/H7 in another recognised language.

Students wishing to take a language option must present a H3 in the chosen language.

This degree equips students with the essential knowledge and critical skills needed to understand Irish, EU and global political systems, globalisation, international relations and global development. Complementary subjects such as history, geography, sociology and language studies broaden understanding further. Opportunities like a semester of Erasmus/Exchange and work placement are also core components of the programme. Graduates will be poised for careers in the public sector and private organisations in a variety of positions including policy-related roles, communications and political advising. With the knowledge and skills they have acquired, graduates will be ready to make significant contributions to the global society.

### LM031 Bachelor of Arts in Professional Pathways

This course is planned to commence in September 2025. At the time of an offer, an applicant is required to hold the Leaving Certificate (or equivalent), with a minimum of six subjects including: Grade H5 or better in at least two subjects and Grade O6/H7 or better in at least four subjects together with a minimum of F6 in Mathematics, O6/H7 in English and O6/H7 in another recognised language.

Students wishing to take a language option must present a H4 in their chosen language except for beginner Spanish, beginner German or beginner Japanese where a H4 in a language other than English is required.

### LM175 Bachelor of Science in Immersive Bioscience and Biotherapeutics

This course is planned to commence in September 2026 and is not available for entry in 2025. Entry requirements will be published in 2025.

## Additional Entry Requirements

LM131 Bachelor of Arts in Irish Music

LM132 Bachelor of Arts in Irish Dance

LM133 Bachelor of Arts in Contemporary Dance

LM134 Bachelor of Arts in Voice

LM135 Bachelor of Arts in World Music

1 February applicants will be invited to a face-to-face audition to be held in March 2025. Later applicant auditions will be held on a rolling basis and applicants will be communicated with inviting them to audition.

**Note: Applicants will also have the option of submitting audition materials online if they cannot travel to Limerick.**

### LM076 BSc in Product Design & Technology

A portfolio is required for entry. Applicants are informed via email after applications close.

Application Deadline	Submission Date	Deadline for Submission
1st February	TBC	TBC
1st May	TBC	TBC
1st July	TBC	TBC

Further information can be seen on the website <https://www.ul.ie/courses/bachelor-science-product-design-and-technology#entry-requirements>

### LM099 B Arch in Architecture

LM099 is not going to have a portfolio requirement for school leavers for 2025. Mature applicants will be interviewed and will be advised to bring material to support their application.

### LM103 BSc in Paramedic Studies

Applicants must provide evidence of a Valid Full Clean B and either a Provisional C1 or Full Clean C1 Licence, prior to offer of a place on the course. Deadline for submission is the 31 July.

Applicants must produce a Valid Full Clean C1 Licence by the end of Year 1 of the course.

### LM173 Bachelor of Science in Immersive Software Engineering

Portfolio is required for 2025 entry. Applicants are required to submit a portfolio of creative work, and a written statement, and may be called for an interview.

Further information can be found on the course page <https://www.ul.ie/courses/bachelor-science-immersive-software-engineering>

## Mature Applicants

Nursing and Midwifery applicants who wish to be considered for a place on the grounds of mature years must satisfy Bord Altranais agus Cnámhseachais na hÉireann as to their suitability by means of an assessment test. Mature applicants should be 23 years old on or before 1 January of the year of enrolment. Mature applicants must apply through the Central Applications Office (CAO) by 1 February 2025.

## Sports Scholarships

The University has a Sports Scholarship Programme. This Scholarship Scheme is for high performing athletes across all sports. Scholarships are offered at three levels, Gold up to €10,000, Silver up to €5,000 and Bronze up to €1200. This comes in the form of Accommodation, Fees, Training grants etc. depending on the Scholarship you are offered.

Applications open on Jan 1st and close on March 1st every year. Further Information is available at [ul.ie/sportsscholarships](http://ul.ie/sportsscholarships)

## Special Mathematics Examination: Faculty of Science & Engineering

The Faculty of Science & Engineering run a Special Mathematics Examination which can be used as an alternative to Higher Level Leaving Certificate Mathematics for entry to Undergraduate Courses in the Faculty. The examination is based on the Higher Level Mathematics syllabus. Candidates taking the examination must achieve the equivalent of the Leaving Certificate grade required for entry to the courses to which they are applying. Please note the following:

- Applicants must have satisfied all other entry requirements for the courses to which they are applying.
- Applicants must also have achieved the points required for entry to the course.
- Applicants who achieve the required result in the Special Mathematics Examination and satisfy all other entry requirements and achieve the required points for the course will be considered for an offer in Round 2 as part of the CAO offers allocation process.

- The Special Mathematics Examination is no longer available at Ordinary Level.
- The Special Mathematics Examination can only be used to satisfy the Mathematics requirement for courses offered by the Faculty of Science & Engineering.

Further details on the examination, including the application process and previous exam papers, are available from the Faculty website at <http://www.scieng.ul.ie/>.

Additional courses accepting the Special Maths Exam to meet matriculation requirements: LM092, LM094, LM095, LM096 and LM097.

## Access to University Course

Entry route for those under 23 on or before the 1 January 2025 into any Undergraduate course in the University of Limerick.

- Applicants must have satisfied both the minimum entry requirements and the subject specific requirements for the courses to which they are applying for.
- Applicants must have completed their Leaving certificate or QQI equivalent for their course to apply.
- Applicants must meet the eligibility criteria set out by the HEAR scheme.

Scan the QR code for more info or visit [www.ul.ie/student-affairs/access-office/routes-to-3rd-level/access-to-university-course-auc](http://www.ul.ie/student-affairs/access-office/routes-to-3rd-level/access-to-university-course-auc)

- If not previously deemed eligible for HEAR the Access Office can assess applicants under these criteria.

## New Closing Date – DARE/HEAR

The new closing date for DARE/HEAR documentation to the CAO is 15 March 2025.

# Common Entry Courses

The University of Limerick offers leaving certificate students the options to enter a common entry course of study in first year.

Students pick their field of study at Leaving Cert stage and then specialise into their chosen discipline during their studies.

This opportunity to explore interests and tailor a bespoke degree is offered across Kemmy Business School (KBS), Arts, Humanities and Social Sciences (AHSS) and Science and Engineering (SEN).

# Choices in Science and Engineering

The Faculty of Science and Engineering offers 22 Bachelors/Masters of Science and Bachelors/Masters of Engineering UG programmes, including 5 Common Entry routes. The following outlines the changes that have been made.

In choosing the following courses you will have extra time to choose which course to opt for as your final degree course. The high standard and quality of the courses that are available under each of the Common Entry routes has remained the same, the only difference is that you can experience a wider range of subjects before deciding which area you most prefer. There is a restriction on LM116 Engineering and entry into your final degree choice may depend on your performance in your UL Exams.

## LM116 Engineering (Biomedical or Civil or Design & Manufacture or Digital Mechatronic Engineering or Mechanical)

contains the following courses:

- BE/ME Biomedical Engineering
- BE/ME Mechanical Engineering
- BE/ME Civil Engineering
- BE Design and Manufacture
- BE/ME Digital Mechatronic Engineering

In Semester 1, you will study modules in areas of Engineering, Mathematics, Engineering Mechanics, Chemistry for Engineers and Computing. By the end of Semester 1 you will have a basic understanding of the core areas of engineering which will help you in making your choice of the above engineering courses.

In the event that a course is over-subscribed, places will be allocated based on UL exam performance. Having selected LM116 you will be requested to rank the degree courses in order of your preference during Semester 2.

## LM121 Computer Science (Computer Systems or Computer Games Development or Cyber Security & IT Forensics)

contains the following courses:

- BSc Computer Systems
- BSc Cyber Security & IT Forensics
- BSc Computer Games Development

Computer Technologies offers exposure to a variety of subjects relating to different areas of computing such as general programming, knowledge of computer architecture, games modelling, and an understanding of the mathematical basis that underpins computing. Our well-equipped and modern laboratories will enable you to acquire the practical experience and skills, with confidence. You will follow a common first year course of study and then select one of the above three courses during the Semester 2. During the first year you will become well-versed in a range of computing subjects, and therefore, can make better choices that suit your particular needs and interests. You complete Year 1 in LM121 Common Entry and proceed to your course of choice for Year 2,3 & 4.

## LM123 Biological and Chemical Sciences (Bioscience or Environmental Science or Industrial Biochemistry or Biomedical Science or Pharmaceutical & Industrial Chemistry)

contains the following courses:

- BSc Pharmaceutical and Industrial Chemistry
- BSc Industrial Biochemistry
- BSc Environmental Science
- BSc Bioscience
- BSc Biomedical Science

(after completing Years 2 and 3 in Bioscience)

In this course you will undertake specific modules in the areas of chemistry, biology, maths and physics. As the subsequent degree course choices focus heavily on biology or chemistry (or a combination of both), the biology and chemistry subjects taken in LM123 are designed to facilitate you in developing a fundamental competency in these areas. In conjunction with these core scientific modules, there will also be an interesting set of modules designed to give you a clear understanding of the key areas and content of the subsequent degree course options of Industrial Biochemistry, Pharmaceutical & Industrial Chemistry, Bioscience, Biomedical Science and Environmental Science. You complete Year 1 in LM123 Common Entry and proceed to your course of choice for Year 2,3 & 4.

## LM124 Mathematics (Mathematical Sciences or Mathematics & Physics or Economics & Mathematics)

contains the following courses:

- BSc Mathematics and Physics
- BSc Mathematical Sciences
- BSc Economics and Mathematics

In Semester 1, you will study calculus, linear algebra and computer programming and can choose from a selection of other modules, including physics and economics, before deciding which degree to pursue. The choice of course needs to be made before the end of Semester 1. There is no restriction on this choice, except that to continue with Mathematics and Physics you must take a physics module in and similarly to continue with Economics and Maths you must take an economics module in Semester 1. It is possible to select modules which leave all three options open for the second semester. You proceed to your course of choice for Semester 2 of Year 1.

## LM125 Physics (Applied Physics or Mathematics & Physics)

contains the following courses:

- BSc Applied Physics
- BSc Mathematics and Physics

In Semester 1, you will study topics in physics including mechanics, heat, electricity, magnetism, and methods of measurement. You will also study general chemistry and topics in mathematics including linear algebra and calculus. Before the end of Semester 1 you will choose whether you wish to study Applied Physics or Mathematics and Physics. The major distinction between these two courses is that Applied Physics includes physical chemistry and electronics, subjects that the Mathematics and Physics course omits in favour of developing stronger mathematical skills. You proceed to your course of choice for Semester 2 of Year 1.

# Students with Disabilities

## Disability Access Route to Education (DARE)

The University of Limerick is part of the Disability Access Route to Education (DARE) scheme. This third level admissions scheme seeks to provide equity of access to disabled students, students with a specific learning difficulty or significant ongoing illness, who have experienced additional educational challenges in second level education and may not meet the points for their preferred course. The scheme is for students applying through the CAO, under the age of 23 as of 1 January 2025. The DARE scheme is not open to applicants applying to Mature Student or QQI FET awards entry routes.

Every course in UL has a quota of DARE places that are reserved for DARE eligible applicants. Students who meet the eligibility criteria have the possibility of receiving an offer even if they do not meet the CAO points. Places are offered to applicants in order of the points they receive, from the highest down, until all DARE allocated places are filled. The points reduction therefore varies for every student. Applicants must meet all other minimum entry and specific subject requirements.

Applications are made through the CAO application system. Students must indicate that they will apply to DARE through the CAO by 1 February 2025, disclose the required details of their disability on their online CAO application by 1 March 2025 and supply the required supporting documentation to the CAO by post by 15 March 2025.

Further information and all application forms are available on [www.accesscollege.ie](http://www.accesscollege.ie) and any queries can be sent to [dare@ul.ie](mailto:dare@ul.ie).

Students who do not enter through the DARE route or who are deemed ineligible for DARE may still be able to avail of the support of Disability Services in the University of Limerick and are encouraged to make contact. For further information email [DisabilityServices@ul.ie](mailto:DisabilityServices@ul.ie).

## Second Language Exemptions

### Who can apply for a Second Language Exemption?

- If you are applying to UL but do not meet the second language requirement, you can apply for an exemption.
- If you do not take Irish, but do take another language apart from English (e.g. French, German) you do not need to apply for a language exemption for UL.

Three categories of applicants may qualify for a UL Language Exemption:

1. Applicants **with** a Department of Education and Skills (DES) Language Exemption from primary or post primary school.
2. Applicants **without** a DES Language Exemption but are exempt from taking a language due to the findings of a psychological report.
3. Applicants educated / part-educated outside of the Republic of Ireland (ROI). You may be eligible for an exemption if you were either:

Born outside of ROI and attended a least one year of second level education outside ROI, but are now attending second level in ROI and did not have the opportunity to take up a second language.

or

Born in ROI but now live and attend second level education outside ROI and did not have the opportunity to take up a second language.

### How to apply?

Applications are only accepted through the online Second Language Exemption Application Form with supporting documents as per the webpage attached. <https://www.ul.ie/academic-registry/leaving-certificate-students>  
Please note:

- The Second Language Exemption Application is separate to the DARE scheme.
- Closing date is 1 July.
- Applications submitted will be reviewed by the university and decisions will be emailed to the email given on the application form.
- The NUI Declaration Form is not applicable to University of Limerick.
- The exemption applies only to minimum entry requirements. The exemption does not apply where there is a specific language requirement for a course.
- Candidates must satisfy all other course requirements.

Please note that the University of Limerick reserves the right to withdraw an exemption from a language where any evidence that accompanies the CAO application indicates that the applicant does not qualify.

# Access For Socio-Economically Disadvantaged Students

## Access Office

The University actively encourages participation by socio-economically disadvantaged students in its courses of study. Students applying to the University through the Access Office will be assessed socio-economically to determine their eligibility. The Access Office offers two entry routes to the University of Limerick: the Access to University Course and the Higher Education Access Route (HEAR).

## Access to University Course

The Access to University Course is a 13 week full time course held in the University during the Spring Semester. The course consists of modules in study skills, personal development, transition to university, life skills, logical problem solving, and computer skills. Participants also undertake a link-in module in the undergraduate course they plan to proceed to the following September. On successful completion of the course, students progress to the degree course of their choice in the autumn and are offered a variety of academic, personal and social supports while studying at the university. Further information and application material is available on this course from the University of Limerick Access Office.

## Higher Education Access Route (HEAR)

The University of Limerick is part of the Higher Education Access Route (HEAR) scheme for school leavers under 23 years old as at 1st January 2025 from socio-economically disadvantaged backgrounds. HEAR has been established by a number of Higher Education Institutions based on clear evidence that socio-economic disadvantage has a negative impact on educational achievement at school and progression to higher education.

School leavers who provide satisfactory evidence relating to their socio-economic circumstances and meet the Irish Leaving Certificate minimum entry and specific subject requirements are eligible to compete for a quota of places allocated to applicants on a reduced points basis in the University of Limerick.

School leavers must apply to the CAO by the 1st February 2025 if they are applying through the HEAR scheme make sure to tick the box for HEAR on their CAO application form. Apply online to the CAO by 1st March 2025 and post the required supporting documentation to the CAO by the 15th March 2025.

## Condition of a HEAR Offer

Students who receive a HEAR offer must attend an orientation course before the first semester. It is compulsory for students who accept a supported offer to attend this orientation course which is called the Transition to University Course (TUC).

Students who accept places at the University of Limerick through HEAR are offered a variety of academic, personal and social supports while studying at third level.

Details of post-admission supports for HEAR entrants can be found by scanning the QR code or by visiting [www.accesscollege.ie](http://www.accesscollege.ie)

# Mature Students Entry

## All Courses

(other than Nursing & Midwifery)

To submit an application for consideration as a mature student, the following steps must be completed:

- 1 Mature applicants must apply online through the Central Applications Office (CAO) by 1st February each year. Some courses will accept late applications through the CAO. Please email the mature student office for information on these courses.
- 2 To apply as a mature applicant, prospective students should check box 7 under the Qualifications and Assessment Summary. This will allow applicants to submit additional information and details regarding their education and experience.
- 3 The following further personal and educational information must be posted to the CAO within 10 working days of submitting your application:
  - All University of Limerick Undergraduate courses accept mature student applications.
  - All undergraduate courses have specific requirements for mature students. These can range from minimum math requirements to supporting essays.
  - You can find the information on what to submit as part of your mature student application under the "Additional Requirements" section of the course page.
  - All required documents must be submitted for a mature application to be considered. If you have any questions about the requirements, you can reach out to the mature student office. Additional information and deadlines are available from the mature section of the UL website.

## Nursing & Midwifery Courses

Students applying for any Nursing and Midwifery courses must complete the Nursing and Midwifery board assessment test. The test is usually held in late April/ early May. More information will be sent directly to applicants from the CAO.

Applicants are assessed entirely on the test, but not all applicants who pass the test can be offered a place. Mature applicants should be 23 years old on or before January 1st of the year of enrolment. For more information on applying as a mature student, go to:

<https://www.nmbi.ie/Careers-in-Nursing-Midwifery/How-to-apply/Mature-Applicants>

**Shirley Ryan**  
Mature Student Officer

## Mature Student Access Certificate

The Mature Student Access Certificate is a one year full-time pre-degree course designed for individuals who wish to develop or refresh key learning skills, and to undertake some foundation level academic studies, before applying directly to an undergraduate degree course. Applicants must be at least 22 years of age as of 1st January. Core subjects include study skills, computer skills, maths and educational guidance. Students will also study subjects such as physics, history and biology depending on what they are interested in studying at undergraduate level. You can find more details about this in the Mature Student Access Certificate guide.

Classes are delivered on campus which lets students get to know the campus before beginning their undergraduate studies.

## Maths for STEM Certificate

This one-year part-time course is suitable for learners who wish to improve their mathematical competency in preparation for further study or work in the Sciences, Technology, Engineering and Mathematics (STEM) disciplines. The certificate is recognised by UL as equivalent to Higher Level Leaving Certificate Mathematics for mature student applicants to certain degree courses. The course is offered by Limerick and Clare Education and Training Board in partnership with UL. Contact the Mature Student Office for details on either of these pre-degree courses: [ul.ie/mso](http://ul.ie/mso)

## Information Sessions and Workshops

The Mature Student Office organises a number of information sessions and workshops throughout the year to support applicants who wish to apply to UL as mature students. We also encourage prospective mature students to come to any of the UL Open Days. Further information on all relevant events is available on the Mature Student Office website.

## Mature Student Supports

The Mature Student Office supports students from pre-application to graduation. A dedicated Welcome Programme is held for incoming mature students and we are available for both online and in person meetings. Drop ins are welcome to the Student Support and Engagement Hub for students and we also hold events throughout the semester. More information can be found on our website and social media. For information on specific supports offered, please contact the Mature Student Office.

## Apprenticeships at University of Limerick

An Apprenticeship is a programme of structured education and training which formally combines and alternates learning in the work place with learning in an education or training centre. It is a dual system, a blended combination of on-the-job employer-based training and off-the-job training. University of Limerick is Ireland's first University to offer apprenticeships from Level 7 Diploma to Level 10 Doctorate under this banner.

UL offers the following apprenticeships:

- Lean Sigma Manager Masters Level 9
- Supply Chain Associate Diploma Level 7
- Supply Chain Specialist Degree Level 8
- Cybersecurity Practitioner BSc Level 8
- Supply Chain Manager Masters Level 9
- Equipment Systems Engineer Masters Level 9
- Doctorate Programme Level 10

# Postgraduate Conversion Courses

Postgraduate conversion courses are programmes created for students with degrees in areas other than the ones they wish to pursue. These programmes equip students with the necessary knowledge and skills to transition into new careers or industries.

At University of Limerick, we offer a wide range of postgraduate conversion courses in areas such as allied health, business, law, medicine and psychology.

With our excellent facilities, highly qualified staff, and strong industry connections, UL is an ideal choice for those looking to upskill and embark on a new career path.

## Conversion Courses include:

- Professional Master of Education (2 years)
- Graduate Entry Medicine (4 Years)
- Diploma/ MA Psychology
- Physiotherapy MSc\*\* (2 years)
- Occupational Therapy MSc\* (2 Years)
- Speech and Language Therapy MSc\* (2 years)
- Human Nutrition and Dietetics MSc (2 Years)
- Business Management, MA (1 year)
- Environmental Science, Higher Diploma (1 year)
- Agile Business Analysis (1 year)

*\*\*GAMSAT required \*HPAT required*

## MSc Speech & Language Therapy

The MSc in Speech and Language Therapy (Professional Qualification) is offered over two years full-time as a route to qualification for professional practice for applicants who have already attained a degree.

### Entry Requirements

Minimum of a second class honours primary degree (2.2) (Level 8 National Qualifications Authority of Ireland) or a postgraduate degree (Level 9 National Qualifications Authority of Ireland). The type of previous undergraduate degree awarded is not a limiting factor in terms of eligibility. Candidates may apply to this course in the final semester of an undergraduate course and must produce evidence that all requirements for postgraduate study are met before entering the course including the minimum second class honours level 8 degree.

For candidates who meet this requirement, the HPAT (Health Professions Admission Test-Ireland) will be used as the sole instrument to select students for this course.

## MSc Occupational Therapy

The MSc Occupational Therapy (Professional Qualification) is recognised by the World Federation of Occupational Therapists; accredited by the Association of Occupational Therapists of Ireland; and approved by CORU.

This course was the first Graduate Entry Masters course in Ireland. The course was developed in response to the Bacon Report recommendation that graduate entry options for occupational therapy be explored. This innovative course is an opportunity for honours graduates to pursue studies leading to a professional qualification in Occupational Therapy. The two-year full-time course is a timely and appropriate route for graduates, as it recognises their educational and work experiences to date.

### Entry Requirements

Minimum of a second class honours primary degree (2.2) (Level 8 National Qualifications Authority of Ireland) or a postgraduate degree (Level 9 National Qualifications Authority of Ireland). The type of previous undergraduate degree awarded is not a limiting factor in terms of eligibility. Candidates may apply to this course in the final semester of an undergraduate course and must produce evidence that all requirements for postgraduate study are met before entering the course including the minimum second class honours level 8 degree.

For candidates who meet this requirement, the HPAT (Health Professions Admission Test-Ireland) will be used as the sole instrument to select students for this course.

## MSc Physiotherapy

The School of Allied Health offers a two-year MSc (Professional Qualification) in Physiotherapy, Level 9 (NQAI). Graduates will be eligible to practice in Ireland and eligible for registration in other parts of the world. Graduates will be able to work in a diverse range of environments including schools, hospitals and community settings. The MSc Physiotherapy has received full accreditation from the Irish Society of Chartered Physiotherapists (ISCP) and has been approved by CORU and are eligible to work in the HSE in Ireland. Graduates will be licensed to practice in Ireland and eligible for registration in other parts of the world.

### Entry Requirements

Minimum of a second class honours primary degree (2.2) (Level 8 National Qualifications Authority of Ireland) Applicants must sit the GAMSAT exam to be eligible to be offered a place. Those in the final year of a Level 8 Degree can apply before graduation and may be offered a conditional place (depending on GAMSAT scores).

## MSc Human Nutrition & Dietetics

The MSc Human Nutrition and Dietetics is a Graduate Entry Masters of Science course delivered over two years full-time. This innovative evidence-based interfaculty course is a opportunity for honours graduates to pursue studies that will lead to them becoming competent nutritionists and dietitians working across a diverse range of environments to include the clinical, community and public health settings, hospital and private practices, food service management and food industry.

The CORU Dietitians Registration Board has approved the MSc Human Nutrition and Dietetics course leading to the qualification title Masters of Science Human Nutrition and Dietetics.

In addition to academic modules at UL, students on the MSc Human Nutrition and Dietetics course will complete 1000 hours of clinical and community placement over two years which includes a summer study period. Clinical placement modules will take place in a range of settings (tertiary and secondary hospitals, primary care, public health and food service establishments) and with patients of all ages. Placements may be based outside of Limerick.

Applicants must clearly state where the prerequisite subjects of Biochemistry and Human Physiology have been met (i.e. in what modules and how many credits) at (NFQ level 8 or higher) as part of the primary or postgraduate degree or other relevant degree from a recognised University.

## MA Psychology

The Master of Art in Psychology (MA Psychology) is a full-time one-year conversion course that integrates existing undergraduate modules and postgraduate modules. The course has been accredited by the Psychological Society of Ireland (PSI) and has been designed for students with prior experiences in psychology and research methods comparable to 1 year of study (10 modules; 60 ECTS). They can also apply for graduate membership in the British Psychological Society (BPS).

### Entry Requirements

Normally a 2.2 honours degree (Level 8 - National Qualifications Authority of Ireland) is required, with a minimum of 60 ECTS or equivalent experience in psychology and research methods. The amount of credits associated with psychology modules must be equivalent to more than 50% of the overall credits.

## MA Business Management

The MA Business Management is a one-year, full-time course for non-business graduates. It covers the fundamental business disciplines: accounting, business communications, economics, human resource management, information management, knowledge management, management principles, marketing management, organisational behaviour and strategic management.

### Entry Requirements

Minimum of a second class honours primary degree (2.2) (Level 8 - National Qualifications Authority of Ireland) in any field other than Business or Commerce related fields.

## MSc Project Management

The MSc in Project Management will provide a valuable gateway for students wishing to pursue a professional career in projects. It is anticipated that through this course students will develop the skills and knowledge to work in project based organisations within their own chosen disciplinary field, such as engineering, science, health, public administration and education.

One of the key aims of the course is to provide students with an opportunity to engage with industry leaders and practitioners through guest lectures and industry lead research projects and case studies. The course delivery will achieve this through a variety of established pedagogical approaches, including a blend of experiential learning, group work, interactive presentations project based case work and assessments. In addition students will have the option of conducting in-company research work. The M.Sc. in Project Management is globally accredited by the Project Management Institute (PMI) and Global Accreditation Centre (GAC)

### Entry Requirements

Minimum of a second class honours primary degree (2.2) (Level 8 National Qualifications Authority of Ireland) in a project management related field, such as engineering, science, business, information technology, public administration, health and education. Candidates may be selected for interview to determine suitability.

## MA Journalism

The MA in Journalism (incorporating the MAJ, Sport) provides cutting edge training in multi-media journalism, with graduates equipped to develop and tell stories across broadcast, print and other digital platforms. As well as an enhanced knowledge of law, ethics and a critical awareness of how the media operates, our MAJ, News and MAJ, Sport students get the opportunity to network with key figures in the Irish media industry through regular workshops and talks on campus.

Prospective students can choose a one-year full-time or a two-year part-time programme with a fixed timetable and blend of online and in-class module delivery. Applicants should normally possess a primary degree in any discipline with at least Second Class Honours Grade 2 and have a high standard of written English. No previous experience in journalism is necessary.

Mix of business and engineering subjects. 3 Streams: Business, Quality Management & Technology Management including: Production & information, technologies, economics & finance, human resource issues and organisation for effective, human relations, accounting & finance, product representation, quality/reliability, production control/ logistics, 'Physics' of productivity & performance, marketing, economical & product issues.

### Possible Careers

Product development, Quality, Supply-chain Management, Scheduling, Logistics, Industrial Engineering, Facilities development, Manufacturing Processes.

## LM066 BSc Environmental Science

**CAO Points: 411**

English: O6/H7 Maths: O3/H7 Second Language: O6/H7 Science: H4

### Other

– QQI FET Pathway

### Course Content

Environmental Science - the application of the fundamental sciences to environmental issues.

Environmental Management - how strategies can be developed and implemented in protecting all aspects of the environment.

Clean Technology - the use of cleaner technologies and processes to minimise the negative impacts of technology on the environment.

Waste Management - the study of the physical methodologies and techniques for dealing with increasing levels of waste generated by the manufacturer and consumer.

Health & Safety - a complementary area to environmental science which specifically deals with significant health and safety issues both in the workplace and in outdoor environments.

### Possible Careers

Consultant Waste Technician, Environmental Awareness Officer, Environmental Consultancy, Environmental Health & Safety (EHS) Officer, Environmental Research, Monitoring & Analysis Specialist, Project Manager, Technical Adviser, Waste Management Technical Officer.

## LM068 BSc Food Science & Health

**CAO Points: 430**

English: O6/H7 Maths: O3/H7 Second Language: O6/H7 Science: H4

### Other

– Co-op Year 3 Jan-Sep

### Course Content

First and Second years: Basic science, chemistry biochemistry & microbiology human nutrition & physiology, food science and health.

Third and Fourth years: health and food, food chemistry food processing and process engineering, food quality and food microbiology, food ingredients, food biotechnology.

Elective modules: immunology, business consulting, waste management, exercise and health, accounting, project management. Final Year Project.

### Possible Careers

Culinary Scientist, Food Technologist, Laboratory Assistant, QA Regulatory Technologist, Quality Analyst, Quality Technician, Sensory Analyst, Technical Sales co-ordinator, Supervision.

## LM076 BSc Product Design & Technology

**CAO Points: 400**

English: O6/H7 Maths: O3/H7 Second Language: O6/H7 Science: O4/H7

### Other

– Co-op Year 3 Jan-Sep

– Portfolio required

### Course Content

Introductory design and presentation, model making skills, creative thinking and design methods, materials used in product design, product manufacturing techniques, introduction to science and engineering, computer applications in design.

### Possible Careers

Product Designer, Process Developer, Product Development Engineer, Design Researcher, CAD Design Engineer, Design Engineer, Industrial Designer, Manufacturing Engineer, Mechanical Design Engineer, Technology Transfer Engineer, R&D Engineer, Technician, User Experience (UX) Designer, Web Designer, Project Manager.

## LM077 BE/ME in Aeronautical Engineering

**CAO Points: 556**

English: O6/H7 Maths: H4 Second Language: O6/H7 Science: O6/H7

### Other

– Co-op Year 3 May-Jan

– QQI FET Pathway

### Course Content

First and Second years: Avionics, air transportation management, mathematics, thermodynamics, materials science, mechanics of solids, introduction to engineering, production technology, aerodynamics, aircraft maintenance, engineering mechanics, Computer Aided Design (CAD), fluid mechanics, electrical engineering, chemistry.

Third and Fourth years: Flight mechanics, aircraft design, aircraft stability and control, aircraft propulsion, aircraft structure.

### Possible Careers

Aeronautical Design Engineer, Aeronautical Engineer, Aerospace Stress Engineer, Aircraft Design Engineer, Associate Technical Professional, Camo Engineer, Design Engineer, Design Liaison Engineer, Development Engineer, Engineering Technician, Graduate Engineer, Maintenance Coordinator, Maintenance Programme Engineer, Material and Process Engineer, Project Engineer, Quality Engineer, Research Assistant, Service Engineer, Support Engineer, Technical Consultant, Technical Designer, Technical Project Manager, Technical Representative, Technical Services Engineer, Trainee Pilot.

#### Course Content

Electrical Machines, Electrical Power Systems, Power Electronics, Energy Management, Energy Storage and Electrical Automation, Cybersecurity and Artificial Intelligence.

#### Possible Careers

BE includes power generation, electricity distribution, smart grid, electric vehicles, facilities management, power electronics, energy analytics, Yr 5, ME includes; data centre design energy including Electrification of Transport, Wind, Ocean and Hydro Energy, Solar and Nuclear Energy and operation, Grid security.

### LM173 BSc/MSc Immersive Software Engineering

**CAO Points: 676**

English: O6/H7 Maths: H4 Second Language: O6/H7

#### Other

- Portfolio Required
- Includes ongoing Residencies replacing Co-op block placement

#### Course Content

Problem Solving with Computers, Effectively Building Software with Others, Data Centric Computing, Computation and Architecture 1 & 2, Human Centric Computing, Ethical Hacking and Security 1 & 2, Scaling for Reliability and Performance, Computational Thinking.

#### Possible Careers

- Software Engineer
- Researcher  
Government or Private companies in software engineering capacities
- Entrepreneur

### LM174 BSc/MSc Artificial Intelligence and Machine Learning

**CAO Points: 498**

English: O6/H7 Maths: H3 Second Language: O6/H7

#### Other

- Co-op Year 3

#### Course Content

Mathematics (including) Calculus 1 & 2, Linear Algebra, Further Linear Algebra, Vector Analysis, Engineering Mathematics.

Artificial Intelligence (including) Programming for Artificial Intelligence, Artificial Intelligence for Games, Topics in AI (Seminar Series), AI Culture: Themes, Ideas, Debates.

Machine Learning (including) Machine Learning for Interactive Systems, Data Analytics, Big Data Management & Security, Neural Computing, Data Mining.

Computer Science (including) Introduction to Programming, Foundations of Computer Science 1 & 2, Software Development, Operating Systems, Intelligent Systems.

#### Possible Careers

- Data Analytics
- Software Engineering in private or government sectors.
- Research
- Software Developer in Diagnostics
- Machine Learning
- Technology Development.

### LM180 Certificate/Diploma Equine Science

**CAO Points: 300**

English: O6/H7 Maths: F6/O6/H7 Second Language: O6/H7

#### Other

- Co-op Year 2
- QQI FET Pathway

#### Course Content

# Course Summary – Notes

## Notes on Course Entry Requirements

### Specific Subject Requirements for Entry to a Course

The specific subject requirements for entry to a course of study are outlined in the course summary section on the previous pages. In addition to these requirements, applicants must satisfy the minimum entry requirements for admission to the university as outlined in the next section.

## Minimum Entry Requirements for Admission to the University (Minimum Entry Requirements)

### Leaving Certificate - Minimum Entry Requirements for Entry to Degree Courses

Applicants are required to hold at the time of enrolment the established Leaving Certificate (or an approved equivalent) with a minimum of six subjects which must include: Two H5 (Higher level) grades and Four O6 (Ordinary level) grades or four H7 (Higher Level) grades.

### Leaving Certificate - Minimum Entry Requirements for Certificate/Diploma Equine Science

Applicants are required to hold at the time of enrolment the established Leaving Certificate (or an approved equivalent) with a minimum of five subjects which must include: five O6 (Ordinary Level) grades or five H7 (Higher Level) grades.

## Language Entry Requirements

Code	Course Name	Note: Students wishing to take a language option must meet the requirements outlined below
LM002	BA Arts	H4 in the chosen language except for beginner Spanish or beginner German where a H4 in a language other than English is required.
LM029	LLB Law Plus	H4 in chosen language except for Japanese or beginner Spanish where a H4 in a language other than English is required.
LM030	BA Global Politics	H3 in chosen language
LM031	BA Professional Pathways	H4 in the chosen language except for beginner Spanish or beginner German or beginners Japanese where a H4 in a language other than English is required.
LM039	BA Journalism and Digital Communication	H3 in the chosen language for students wishing to take a Language Studies elective.
LM040	BA European Studies	H3 in a language other than English. Students choosing two language options with Irish/Gaelige, must hold a minimum H3 in Irish/Gaelige.
LM050	BBS Business Studies	H4 in the chosen language except for Japanese or beginner Spanish where a H4 in a language other than English is required.
LM056	BA International Business	H4 in the chosen language except for Japanese or beginner Spanish where a H4 in a language other than English is required.
LM091	B Ed Languages	H3 in one of the two languages you are choosing to study.

## Notes

For the purposes of satisfying minimum entry requirements:

- Subjects must include Mathematics, Irish or another language, and English.
- An F6 (Foundation Level) grade in Mathematics can be used as an alternate to an O6 (Ordinary Level) grade and can be used to satisfy the Mathematics subject requirement.
- Foundation Irish and the Leaving Certificate Vocational Programme (LCVP) are not recognised.
- Applicants who do not meet the language requirement may be eligible to apply for a Second Language Exemption, please refer to page 8 for more information.

Candidates may continue to fulfil course requirements and minimum entry requirements from more than one sitting of the Leaving Certificate.

# Other Entry Facilities

## Special Mathematics Examination

The Faculty of Science & Engineering run a Special Mathematics Examination which can be used as an alternative to Higher Level Leaving Certificate Mathematics for entry to undergraduate courses in the Faculty. The examination is based on the Higher Level Mathematics syllabus. Candidates taking the examination must achieve the equivalent of the Leaving Certificate grade required for entry to the course to which they are applying. Please note the following:

- Applicants must have satisfied all other entry requirements for the course to which they are applying.
- Applicants must also have achieved the points required for entry to the course.
- Applicants who achieve the required result in the Special Mathematics Examination and satisfy all other entry requirements and achieve the required points for the course, will be considered for an offer in Round 2 as part of the CAO offers allocation process.
- The Special Mathematics Examination is no longer available at Ordinary Level.
- The Special Mathematics Examination can only be used to satisfy the mathematics requirement for courses offered by the Faculty of Science & Engineering.

Further details on the examination, including the application process, are available by scanning the QR code or visiting the Faculty website at [www.ul.ie/scieng](http://www.ul.ie/scieng)

## Competitive Requirements

Due to the number and calibre of applicants, qualified candidates to all undergraduate degree courses are placed in order of merit based on a points system. Points are awarded for the best six subjects from one sitting of the Leaving Certificate. The Leaving Certificate Vocation Programme (LCVP) can also be included in the calculation of points scores but does not satisfy minimum eligibility entry requirements.

## Subject Combinations for Points Scores

- Physics and Physics & Chemistry count as one subject.
- Chemistry and Physics & Chemistry count as one subject.
- Physics, Chemistry and Physics & Chemistry count as two subjects.
- Any combination of Home Economics (Scientific and Social), Home Economics (General) and Home Economics (Single course), count as one subject.
- English and English Composition count as one subject.
- Music, Music and Musicianship, Music and Musicianship A, Music and Musicianship B, any combination counts as one subject.
- Agricultural Economics, History, Economics, Economic History count as three subjects.
- Any two or three subject combinations of: History, Economics, Economic History, Agricultural Economics, count as two subjects except when Agricultural Economics and Economics are combined in which case they count as one subject.

# QQI FET Entry

## General

The University of Limerick has entry routes to first year of undergraduate degree courses for students who have achieved the relevant QQI Level 5 award. Candidates will be ranked on the basis of their performance in that award. QQI pathways are evolving regularly, please see the CAO Website for the most date information.

## Application Process

All applications for admission under the QQI entry pathway must be made through the Central Applications Office (CAO).

## Minimum Entry Requirements

Certain QQI Level 5 major awards are acceptable in fulfilling the admission requirements for each course of study. In all circumstances candidates must present the full award with a minimum credit value of 120 which must include a distinction in at least 5 component awards.

In addition to satisfying the minimum entry requirements, candidates must also satisfy the specific component award requirements as outlined below.

## Scoring Process

This scoring process only applies where all the requirements for the major award are met (i.e. when the specified component awards have been achieved to a minimum of 120 credits). Each component is given a score based on the credit value of the component and the weighting of the grade achieved.

Although most component awards have a credit value of 15, credit values of 5, 10, 20 and 30 also apply.

The following grade weightings apply:

- 1 for a pass
- 2 for a merit
- 3 for a distinction

To calculate a component score:

- Multiply the credit value of the component by the weighting for the grade achieved.
- Add all of the component scores up to a cumulative credit value of 120. When adding up these scores begin with distinctions, then merits, then passes.
- Multiply the total by 13 and divide by 12.

Components leading to the best 120 credits are scored and applicants are ranked accordingly. The best 120 credits come from component awards achieved with the highest grades. Some applicants will combine components achieved prior to the introduction of CAS with others which are part of CAS.

Examples of the scoring scheme are available on [www.cao.ie](http://www.cao.ie).

## Graduates of QQI HET Higher Certificate

Applications are invited from graduates of the following who wish to pursue a compatible full-time Honours Degree course (Level 8) at UL:

- QQI HET Higher Certificate, NFQ Level 6 Major Award
- QQI HET Bachelor (Ordinary Degree), NFQ Level 7 Major Award and Level 6 QQI (FET)

Transfers are accepted into most of our courses. However, a number of our courses do not accept transfer applications due to the structure of the course. E.g. Education / Nursing.

Prior to submitting an application students are advised to discuss their options with the Head of the relevant School/Department of the course they wish to transfer to.

**NOTE:** The contents of this Annual Course Guide are for information purposes only and should not be viewed as the basis of a contract between a student and the University. All information is correct at the time of print. ### Computer Science (Common Entry) **LM121**

#### Specific Entry Requirements

Must possess 5 distinctions which must include the following essential modules/components.

In addition students should have achieved a distinction in 5N1833 (Mathematics) OR 5N0556/5S2246 (Maths for STEM) OR 5N18396 Maths for Information Technology OR have achieved an O2/H6 in LCE Mathematics.

#### Essential Level 5/6 Major Award

- 5M1940 Computer Aided Design

#### Essential Modules/Components:

No specific modules required

#### Essential Level 5/6 Major Award

- 5M0536 Computer Systems and Networks

#### Essential Modules/Components:

Five distinctions which must include two of the following:

- 5N0548 Computer Systems Hardware
- 5N2927 Programming and Design Principles
- 5N2929 Networking Essentials
- 5N2928 Operating Systems
- 5N0554 Computational Methods and Problem Solving
- 5N18396 Maths for Information Technology

#### Essential Level 5/6 Major Award

- 5M0529 Software Development

#### Essential Modules/Components:

Five distinctions which must include three of the following:

- 5N0541 Fundamentals of Object Oriented Programming
- 5N2772 Software Architecture
- 5N0783 Database Methods
- 5N2928 Operating Systems
- 5N2769 Software Testing
- 5N2927 Programming and Design Principles
- 5N0580 Mobile Technologies
- 5N1910 Web Authoring
- 5N1651 Games Analysis Design
- 5N18396 Maths for IT (Or the Leaving Certificate equivalent)

#### Essential Level 5/6 Major Award

- 5M2146 Multimedia Production

#### Essential Modules/Components:

Five distinctions which must include two of the following:

- 5N1300 Multimedia Project Development

- 5N1603 Computer 3D Modelling and Animation

- 5N1605 Digital Movie Processing

- 5N1651 Games Analysis Design

- 5N1929 Computer Illustrated Graphics

- 5N1978 Graphic Design Skills

### Biological and Chemical Sciences **LM123**

#### Specific Entry Requirements

Must possess 5 distinctions which must include the following essential modules/components.

In addition students should have achieved a distinction in 5N1833 (Mathematics) OR 5N0556/5S2246 (Maths for STEM) OR have achieved an O3/H7 in LCE Mathematics.

#### Essential Level 5/6 Major Award

- 5M3807 Laboratory Techniques

#### Essential Modules/Components:

Five distinctions which must include two of the following:

- 5N2751 Laboratory Skills
- 5N1460 Physics
- 5N2747 Chemistry
- 5N2746 Biology
- 5N0737 Microbiology
- 5N2748 Food Chemistry

#### Essential Level 5/6 Major Award

- M5267 Food Science

#### Essential Modules/Components:

Five distinctions which must include three of the following:

- 5N2751 Laboratory Skills
- 5N1460 Physics
- 5N2748 Food Chemistry
- 5N2747 Chemistry
- 5N2746 Biology
- 5N0737 Microbiology

#### Essential Level 5/6 Major Award

- 5M5028 Applied Ecology

#### Essential Modules/Components:

Five distinctions which must include the following:

- 5N2528 Plant Science
- 5N2746 Biology

# UL Sports Scholarships

The UL Sports Scholarships are designed to support high performance athletes in pursuing and excelling in their sport while also undertaking academic study at the University of Limerick. The programme is focused on dual career for these athletes. Scholarships will be offered at three levels:

- **Gold** Support towards a training grant, accommodation, registration, sports science support, coaching and gym membership. On Campus Accommodation & valued up to €10,000.
- **Silver** Support towards a training grant, accommodation, registration, sports science support, coaching and gym membership. On Campus Accommodation & Valued up to €5,000.
- **Bronze** Support towards a training grant, sports science support, coaching and gym membership. Valued at more than €1,200 per year.

In addition UL will support all of the athletes with workshops and academic mentoring to help them achieve success in both academic and sporting careers. All Sports Scholarship access are given the High Performance Athlete Status.

We support a number of sports with currently over nineteen sports covered.

## Who can apply?

The scholarships are open to all current UL students or those who are applying to come to UL for the first time either through CAO or transferring at undergraduate or postgraduate level.

Applicants must be a member of a national governing body of sport recognised by the Irish Sports Council, in the sport in which they are applying for a scholarship.

Students must get the required points to attain the course. We do not offer a reduced points for sports.

Applications are via an online application which open on 3 January and close on 9 March 2025. Please note there is no late applications.

# Learning Support Centres

All of our Learner Centres provide space where students feel comfortable about raising issues that may help them to study or learn more effectively and build their confidence and self-esteem. Our range of helpful learning centres are part of the UL campus and help students to tackle challenges in maths, science, IT, writing and through peer supported learning.

## Mathematics Learning Centre (MLC)

It is well known that many capable students, for a variety of reasons, may find it difficult to achieve the required standards in mathematics to support their degree studies. All UL students studying courses that have a mathematics or statistics module can avail of the Mathematics Learning Centre's (MLC) services free of charge.

To learn more scan the QR code or visit [www.ul.ie/ctl/mlc](http://www.ul.ie/ctl/mlc)

## Regional Writing Centre (RWC)

The Regional Writing Centre is available to all students who seek support to enhance and develop their academic writing skills. We offer one-to-one sessions with trained peer-tutors with proven writing expertise. We also offer essay, report and FYP writing support, tailored for specific disciplines. The RWC also offers workshops, facilitates writers' groups and provides a space for writers who just want a quiet place to write. We believe that anyone can write.

To learn more scan the QR code or visit <https://ulsites.ul.ie/rwc/>

## Science Learning Centre

The Science Learning Centre aims primarily to support undergraduate students taking first year and some second year science modules. Students can visit the Drop-in Centre without appointment or cost. Tutors who are specialists in the main science subjects, i.e. chemistry, physics and biology, are present to address any queries that students may have regarding science-based modules. The Drop-in service does not consist of formal tutorials or classes; rather students bring any questions they have regarding course materials, laboratory report analysis, etc. The tutors are there to assist students in developing their understanding of the basic science concepts.

# Support Services for Students

At UL we offer a wide range of supports and services to help new students settle in and make the very best of their time here with us.

## Student Engagement and Success (SES) Unit

The University of Limerick welcomes and supports all Year 1 students in their transition to third level education. As part of this commitment the university has established a Student Engagement and Success (SES) Unit. The SES Unit are here to support your transition to University to ensure that you get all the support you need to make your first year and beyond a success.

Learn more at <https://www.ul.ie/ctl/ses>

## Student Support and Development Team

There is a Student Engagement and Support Officer (SESO) aligned with each of the four faculties. The SESOs are here to assist full-time undergraduate students in finding the answers to questions and identifying the appropriate supports to help them excel during their time in the University of Limerick.

## Student Financial Support Advice Service

The UL Student Financial Support Advice Service provides financial support and budgetary advice to the general UL student population. The Student Financial Support Advisor advises prospective and registered students on financial planning for college; advises registered students on financial supports available, eligibility criteria and how to access supports; assesses applications for funding supports; and advocates for individual students who might be experiencing particular financial difficulties.

## First Seven Weeks

UL's First Seven Weeks programme is designed to provide strong, targeted support to students during the early weeks as a UL student, each week has its own theme around various issues that we know are important for settling in and thriving as a higher education student.

For more information scan the QR code or visit [www.ul.ie/ctl/students/first-seven-weeks](http://www.ul.ie/ctl/students/first-seven-weeks)

## Student Counselling and Wellbeing Service

Student Counselling and Wellbeing Service provides support during normal working hours (9am-5pm) throughout the semester.

This is a free and confidential service. We are a first point of contact for mental health needs.

For more information scan the QR code or visit [www.ul.ie/student-affairs/counselling-service](http://www.ul.ie/student-affairs/counselling-service)
