# What do you need to do upon arrival in Ghent?

## Registration at HOGENT

Upon arrival, **international exchange students** are welcomed and registered by their incoming student advisor at the International Office and during the Welcome Days (p. 12). Each registered incoming student at HOGENT receives a student card (p. 12).

**International degree students** who wish to follow a full degree program at HOGENT, starting with a preparatory language year of Dutch, report to the

Those students who already reached the Dutch language level B2 can enroll at HOGENT following the procedure mentioned on the website [hogent.be/en/future-student/degree](https://hogent.be/en/future-student/degree), bringing along the original approval, language certificate and other required documents.

## Registration at the City of Ghent: The Migration Counter

All international students without a valid Belgian residence card must have or apply for a student residence permit when moving to Belgium for educational purposes. Depending on your country of origin (EU/EEA or non-European) and the length of your stay, different procedures apply.

You can find all the up to date information on the website of the City of Ghent [stad.gent/international-students](https://stad.gent/international-students), including the procedures and guidelines on how to apply for your residence card.

Depending on your residential address, the Migration Counter of the Administrative Centre Zuid (Woodrow Wilsonplein 1, Gent) or the service center of your municipality will handle the application.

A student with a backpack is walking away from the camera in a brightly lit hallway. The student is wearing a light-colored shirt, dark pants, and a backpack. The hallway has a polished floor and wooden walls.

## Trams and buses in and around Ghent

Public transport in Ghent is well organized. Buses and trams will take you to every possible destination in and around Ghent from early in the morning until late at night. The tickets of De Lijn can be used in all the Flemish cities but not in Brussels. When you use a ticket via text message, you pay € 2.65. You can buy an M-card, which includes 10 rides for € 16. Easy to use with 'De Lijn app'.

Once you get on the bus or tram, do not forget to validate your card in the yellow boxes. If you will be using buses and trams for a longer period, it will be cheaper to buy a seasons ticket. Depending on your age, you can buy a 'Buzzy Pazz' (- 25) or an 'Omnipas' (+ 25).

Both passes are valid on any tram and/or bus of De Lijn, even in other cities. **delijn.be**

## Train

There are two railway stations in Ghent: Gent-Sint-Pieters and Gent-Dampoort. They allow smooth access to the Belgian railway network. If you are planning to travel by train frequently, and if you are younger than 26, it is more economical to buy a 'Go Pass 10'.

This pass is valid for 1 year and allows you to travel by train 10 times to any destination in Belgium, for € 55 (€ 53 in the app!), thus each trip costs you € 5.5. Students older than 26, can buy a 10-trip 'Rail Pass' for € 86 (or € 83 in the app!) (€ 8.6/trip). This pass is also valid for 1 year.

## Waste collection calendar

The waste collection calendar gives the dates of collection for different kinds of waste and recycled garbage, and the rules for separation and collection procedures. You can ask for the correct calendar by e-mailing your full address to [info@ivago.be](mailto:info@ivago.be) with subject “calendar”.

You can also consult the calendar on [ivago.be](http://ivago.be) (click on “ophaalkalender” at the right side and fill in your full address).

## Waste collection

In accordance with police regulations you are only allowed to put your household waste outside on the day before collection and not earlier than 7 p.m. The waste collecting teams start collecting at 7 a.m. If you put your waste outside too late, it will not be collected and you will have to take it back inside.

Leaving household waste outside on the wrong day, in an inappropriate recipient or depositing your garbage in public waste baskets is considered illegal dumping. Such violations are liable to severe penalties! Identified offenders may expect a fine of approximately € 120 and a clean-up bill of € 250.

## How types of waste are collected

Household waste = combustible and nonrecyclable household waste. In official green IVAGO bags\* (30 or 50 liters). Please note that the 15 liter bags can only be used for collection containers in student houses with over 10 residential units! Collected every week. The bags must be tied (not taped).

- PMD = Plastic bottles , containers and flasks, metal packaging and drink cartons. In official blue IVAGO bags\*. Collected every two weeks.
- GFT = Vegetables, fruit, meat and garden waste. In green IVAGO container with electronic chip. This must be ordered at IVAGO or via **ivago.be**. Collected every week. If you do not have a green IVAGO container, dispose your vegetable, fruit and garden waste in your green household waste bag.
- Glass = Transparent empty glass bottles, bowls and flasks. In a plastic bucket or solid plastic box with closed bottom and lateral walls. Collected once a month.
- Paper and cardboard = Newspapers, magazines, books, cardboard boxes, etc. In a closed cardboard box or tied together with a string. Collected once a month.

## Collection containers

Student houses with over 10 residential units have special collection containers for household waste, glass, paper and cardboard, PMD and possibly GFT (Vegetable, Fruit and Garden waste). Ask your caretaker or landlord for the correct collection dates. Place these bags in the correct container.

\*The IVAGO bags can be purchased in most supermarkets, local shops, the City Shop (Woodrow Wilsonplein 1) and at IVAGO (Proeftuinstraat 43).

## Belgium, Flanders, Ghent.

### Belgium

Belgium has been an independent constitutional monarchy since 1830. Belgium has an area of 30,528 km<sup>2</sup> and is located centrally and strategically in Europe. Two out of three citizens of the European Union live within a radius of 350 km around Brussels, the capital of Belgium and Europe.

In Belgium three cultures coexist: the Flemish, the French and the German. In 1980, the country's institutional system was reshaped to accommodate that reality. Currently, there are three language-based Communities, which are self-governing in many important areas such as education, culture, economics, agriculture and environment.

Belgium has a maritime climate, as a consequence of which fog and rain are common here, as is snow in winter. The most pleasant months in terms of temperature are between April and October. Temperatures vary between 10°C and 35°C in summer and -5°C and 15°C in winter. Rainwear, warm clothes and an umbrella will be needed, but not all the time!

## **Flanders**

Flanders has an area of 13,522 km<sup>2</sup> and is situated in the northern region of Belgium. This Dutch-speaking part of Belgium boasts about 6.5 million inhabitants. French is spoken in the southern part of Belgium, Wallonia, and to a large extent in Brussels as well. The very small German-speaking community is located on the eastern border of Belgium.

Flanders is in the center of the major Western European industrial regions. The dense road, waterway and railway network, sea ports and airports make Flanders the ideal gateway to Europe, which is why many multinationals have chosen Flanders as the base for their operations on the European market.

It is important to realize that the language spoken (and lectured) in Ghent is Dutch, the language of 23.5 million Dutch and Flemish people. Dutch is similar to German and related to English. There are only some marginal differences between the Dutch spoken in Flanders and that in The Netherlands, comparable to the differences between British and American English (mainly in the accent, and some in vocabulary).

**Multicultural society**

In Flanders, several cultures coexist peacefully. The Turkish, East European, African, Moroccan and Asian minorities are considered to be cultures that enrich the Flemish culture. Mutual respect is very important in a multicultural society. Racism, violence and discrimination against migrants are crimes that will be prosecuted.

**Interpersonal relations**

At first, Flemish people appear to be modest and introverted. Initially, most of them do not make contact easily with people they do not know. From the moment they get to know you, however, they become very sociable. Never hesitate to start a conversation, the Flemish people are helpful and friendly. If people hear that you do not speak Dutch easily they will switch to

French, English, German or another language to help you. Young people meet at home, at their student room, in pubs and in clubs. When the weather is nice, students also meet in the center of the city. It is good to know that if you are invited to dinner, you should bring your host a little present, such as flowers or a bottle of wine. Students prefer to cook together and, usually, everybody contributes to the meal.

**Ghent****Geography**

Ghent is situated in Flanders, the northern part of Belgium, 50 kilometers from Brussels, Bruges and Antwerp. Ghent, originally named Ganda, arose at the confluence of the two rivers Schelde and Leie. In the late medieval times it was the second largest city in north-western Europe.

Ghent covers 156 km<sup>2</sup> and houses over 263,000 inhabitants. It is the capital of the East Flanders Province and the second largest city of Flanders. Ghent is centrally located in Europe, at the crossroads of highways between Amsterdam, Paris, London and the Ruhr Area. The city is as easy to reach by car as by train.

### **History**

In 1537 Emperor Charles V, who was born in Ghent in 1500, found the inhabitants of Ghent guilty of disobedience and rebellion. He sentenced them to public humiliation: they had to walk the streets barefoot, wearing only a shirt and a noose. For that reason the inhabitants of Ghent are called noose-wearers. Nowadays, they re-enact the incident with their heads held high, as proof of their proud obstinacy.

## **With 80,000 students, Ghent is the largest city of students in Belgium.**

Today, the historical center enjoys the unique atmosphere provided by the rivers and canals. The city of Ghent bathes in the enchanting light of its buildings and monuments every evening.

With 80,000 students, Ghent is the largest city of students in Belgium. Thanks to its unique combination of first-class education and many leisure activities, our city attracts a very large number of students. Boasting a university and four university colleges, Ghent is able to offer a wide range of study opportunities.

## Culture

Knowledge and culture are at the heart of the city of Ghent. From the well-known Mystic Lamb of the brothers Van Eyck, to the beguinages, to the tower of the University Library which was built by Henry Van de Velde. The new city library 'De Krook' has already become a beacon of modern architecture.

Ghent has many museums, art centers, theatres, concert halls, film screens and an opera. One of the museums you really should visit, is STAM, located on the historic Bijloke site. It presents the story of the city of Ghent. It brings past and present together and it is a stepping stone to Ghent's other cultural attractions.

In the area of modern and fine arts, two museums play a leading role: The Museum

of Fine Arts in Ghent (MSK) and the Municipal Museum for Contemporary Art (SMAK). The Museum of Fine Arts in Ghent (MSK) houses a superb collection of old masters. The Municipal Museum for Contemporary Art (SMAK) is a relatively new museum, and is renowned both for its permanent collection and for its provocative exhibitions.
