

## Stewarding the Transition

### Citizens' Mission Council

By 2030, UL's Mission Lab will have fostered active citizenship through robust civic engagement and participatory innovation processes

Active citizens ensure a community's unique perspectives are included in our understanding of today's challenges and tomorrow's opportunities. This mission sees UL pioneer new ways of engaging citizens through transparent, open and participatory innovation processes. In doing so, UL will ensure that the diverse needs and opinions to be found within our community play a key role in all decision making.

#### Outcomes

- + citizen engagement
- + student participation
- + place-based interventions
- + open innovation
- + transparency
- + accountability
- siloed initiatives
- opaque decision making
- collaboration avoidance

#### Metrics

*Official metrics are yet to be defined by the mission team and additional key stakeholders. This will occur upon commencement of the mission projects and will be influenced by data derived from baseline studies of the systems relevant to each mission.*
