Law and Technology

Part-Time Professional Diploma

NFQ Level 9 | 1 Year | Part-Time | Online Learning

Technology is disrupting the legal field. With law often attempting to stay up to date with changing technology, the study of issues arising in law and technology, together with the emergence of AI and the challenges posed as a result, is more critical now than ever before.

To stay ahead of the curve, the School of Law is offering a NFQ Level 9 Law and Technology Professional Diploma to meet this challenge. This programme is open to all professionals. No prior knowledge of the law or the legal system is required. Focusing on three specific outcomes, this Professional Diploma will empower you to:

- Develop a strategic plan outlining how new and emerging technologies are changing how business operates.
- Create and implement new legal and regulatory governance structures within these new technologies.
- Plan for, advise and offer consultancy on the relevant compliance and governance frameworks necessary for you or your client's business to ensure best practice and minimise legal liability.

EXPLORE THE COURSE MODULES:

- Law, Technology and Artificial Intelligence
- Data Governance and Privacy
- Law of Regulated Digital Technologies
- Cybersecurity Law and Policy

THIS PROGRAMME IS FOR YOU IF:

- You would like to differentiate your skill set for career progression.
- You would like to widen vertical markets through expanded skillsets within your organisation.
- The drive and desire for your organisation to be more cutting edge through a heightened value proposition.
- Qualifications to further your career opportunities.

Take your curiosity one step further; find out more.
