Study at UL

Welcome to the University of Limerick

UL's Open Days are planned with you in mind.

This event is aimed at anyone considering studying at University of Limerick.

We have presentations on our degree and masters programmes, information stands to find out what you need to know, and tours to give you a sense of the facilities and services that we can offer you as part of our degree programmes. Find out about how we will support you to settle into university life.

Make sure you chat with our guides – as current UL students, they will be happy to help with any questions you may have.

We hope you have a great day.

Getting here by car

The University is located in Castletroy, just off the main M7 Limerick/Dublin motorway. From the south and west, take exit 30 off the M7 Northbound and follow the signs for the University. From the East/Midlands, take exit 28 off the M7 Southbound and follow the signs for the University.

Parking

Numerous spaces are available to park on campus. Just follow the event signs and our Security personnel will direct you to the nearest space. Please note we will direct you to our free car parks, but in the event of extra parking space needed you may be directed to one of our paid car parks. They cost €3 for the day and you can pay with €1 and €2 coins.

In Case of Emergency

In case of illness or emergency, please contact the nearest member of University staff or Open Day staff and we'll be happy to help. If you hear a fire alarm, please use the nearest marked exit and follow the directions of University staff. Do not use the lifts or re-enter the building until the all-clear is given. Campus Security can also be contacted on 061 213333.

Graduate & Professional Studies

The course you choose at 18 doesn't have to define your career or education.

There is a lot of cross-discipline action at postgrad level. Essentially, a postgrad will give you the opportunity to refine your skills or recalibrate your career path.

Postgraduate pathways can help a business graduate with ambitions to move into the area of tech, with options in areas such as linguistics, technical writing, and computational finance. Arts, Humanities and Social Science graduates may take on postgraduate study in business subjects which involve skills in human behaviour, research, creative solutions, and analysis.
